Roadshow - UBS Paris, October 4th, 2011

Claude Bertrand - EVP Chief Scientific Officer Christophe Jean – EVP Chief Operations Officer Pierre Kemula - Investor Relations Officer Stéphane Durant des Aulnois - Investor Relations Manager

Disclaimer

This presentation includes only summary information and does not purport to be comprehensive. Forwardlooking statements, targets and estimates contained herein are for illustrative purposes only and are based on management's current views and assumptions. Such statements involve known and unknown risks and uncertainties that may cause actual results, performance or events to differ 2materially from those anticipated in the summary information. Actual results may depart significantly from these targets given the occurrence of certain risks and uncertainties, notably given that a new product can appear to be promising at a preparatory stage of development or after clinical trials but never be launched on the market or be launched on the market but fail to sell notably for regulatory or competitive reasons. The Group must deal with or may have to deal with competition from generic that may result in market share losses, which could affect its current level of growth in sales or profitability. The Company expressly disclaims any obligation or undertaking to update or revise any forward-looking statements, targets or estimates contained in this presentation to reflect any change in events, conditions, assumptions or circumstances on which any such statements are based unless so required by applicable law.

The implementation of the strategy has to be submitted to the relevant staff representation authorities in each country concerned, in compliance with the specific procedures, terms and conditions set forth by each national legislation.

Over the last decade, Ipsen has succeeded in adapting to a fast changing environment

Evolution of Ipsen's sales profile

Ipsen is ideally positioned to benefit from current market trends

3 Ipsen – Road Show August - September 2011

Main emerging countries: China, Russia, Brazil Note: French accounting standards for 2002 figures

New strategy aims at leveraging Ipsen's core strengths to become a global leader in targeted debilitating diseases

Increase Focus

Invest to Grow

Leverage Footprint

A market-oriented franchise model...

...driving an R&D patient centric organization focused on core platforms, peptides and toxins.

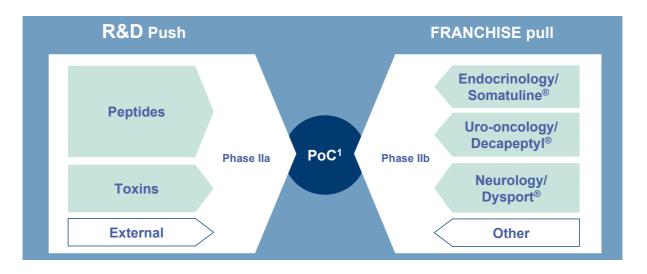

More than double revenues¹

...and more than triple EBIT² by 2020

An integrated R&D "push-pull" model to fulfill patient/commercial requirements

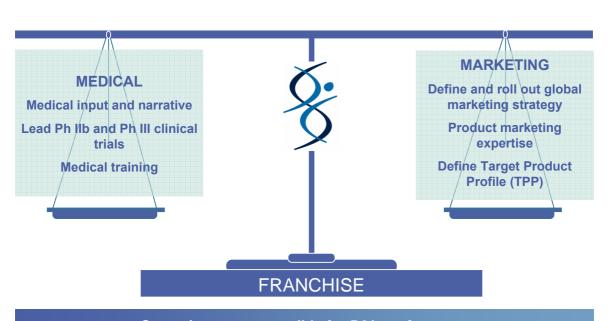

5 Ipsen – Road Show August - September 2011

NOTE 1: Proof of Concept is the evidence that a drug is safe and capable of treating a specific patient population

Franchise focused on medical and marketing...

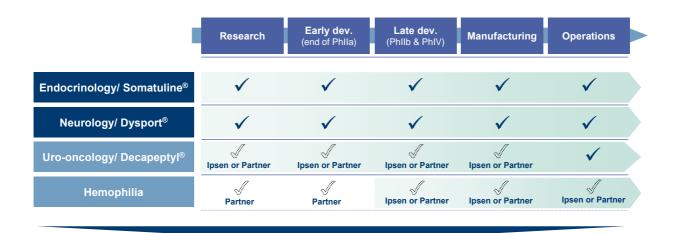

Countries are responsible for P&L performance

...with differentiated focus along the value chain

Primary care and Short Stature in a commercial optimization strategy

7 Ipsen – Road Show August - September 2011

Key decisions made

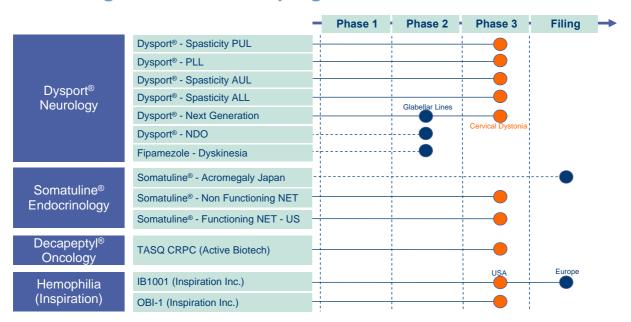

2020 strategy implies important choices

Increase focus

- Close R&D activities at Barcelona site
- Terminate one third of R&D projects
- Regions and countries to manage Short Stature in commercial optimization perspective
- Explore new commercial partnership opportunities in French primary care
- Ensure sustainable future to **Dreux** manufacturing site

Invest to grow: a rich Ph III program

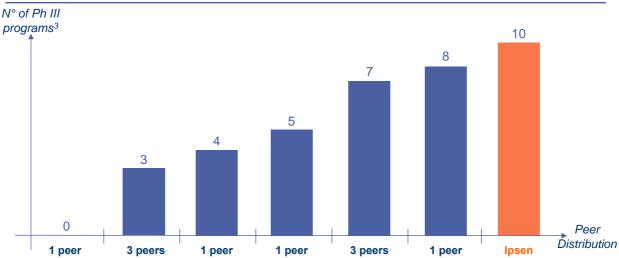

10 on-going phase IIIs, 4 for NMEs, 6 for life cyle management

9 Ipsen – Road Show August - September 2011

Ipsen differentiated from 10 peers¹ in terms of Ph III intensity²

Ipsen and its peers1 - Intensity of Ph III programs

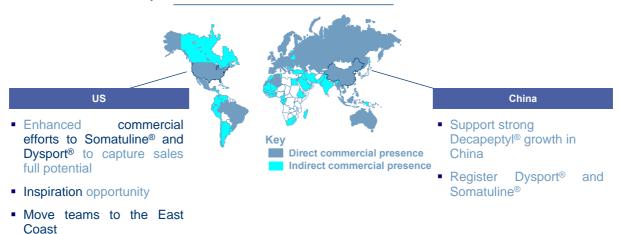

Increase Focus Invest to Grow Leverage Footprint

Leverage Ipsen's extensive commercial reach as a major growth driver

Ipsen recorded sales in 115 countries in 2010

Further leverage Ipsen's profitable commercial reach

11 Ipsen – Road Show August - September 2011

Implementation: main milestones to success

Group strategy – Execution on track

Executive Committee recruitment completed

Progress update

Increase **Focus** R&D

- Barcelona R&D site: all administrative and employee-related procedures required to close the R&D are completed
- R&D programs being aligned with strategic priorities:
 - 5 programs stopped¹
 - 4 additional programs to be stopped before year-end

Footprint US

- Move to the east coast initiated
- Target completion date: January 1st, 2012

Other

- Primary Care France:
 - On-going preliminary contacts with potential partners
- Organizational change:
 - On-going discussions with workers council

15 Ipsen – Road Show August - September 2011

NOTE 1: while meeting on-going patient and clinical obligations

Leveraging Ipsen's pan European infrastructure for hemophilia

European partnership signed with Inspiration for the commercialization of IB1001 and OBI-1

- MAA filing in Europe for IB1001 (recombinant Factor IX)
- · Ipsen to act as Inspiration's exclusive commercial agent (FIX and OBI-1)
- Business Unit leveraging Ipsen's existing resources combined to Inspiration's expertise
- Inspiration to:
 - Book sales
- EBIT neutral for Ipsen:
- Bear all costs
- Book SMM costs
- Book corresponding Other Revenues (re-billing)
- · Potentially attractive commercial opportunity:
 - 2008 FIX European market: c.\$380m1or c.44% of ww market
 - 2020 FIX European market1: c.\$680m1

Exclusive commercial agent in a total of 53 countries

A plug-and-play commercial organization for Inspiration's hemophilia products in Europe, increasing Ipsen's hemophilia market knowledge and presence

Hexvix, consolidation of the uro-oncology franchise

Mode of action

Pharmaceutical agent used by urologists during the Trans-Urethral Resection of the inner wall of the Bladder (TURB), which is preformed to detect and resect non muscle invasive bladder cancers under Blue Light cystoscopy

Target

Urologists working in hospitals

Geographies

- World excluding the US and the Nordics
- Ipsen will focus on key EU countries

Milestones:

- ⇒ Upfront payment of €19 million to GEHC and Photocure
- ⇒ Additional up to €5 million manufacturing milestones to Photocure
- ⇒ Sales achievement milestones to Photocure
- Royalty rate: on net sales to Photocure in line with the industry benchmark
- Up to €3 million marketing support from Photocure in 2012 and 2013

Manufacturing

Financials

Product manufacturing under Photocure's responsibility

2011 expected sales baseline: €14 million

17 Ipsen – Road Show August - September 2011

H1 2011 Financial Results **Summary**

H1 2011, a strong performance throughout

5.2%¹ drug sales growth, driven by:

- Robust specialty care growth, up 7.9%1 y-o-y
 - · Resilient primary care

20.7%² reported operating margin, up 15.1% y-o-y

One-off costs related to the implementation of the new strategy (-€38.7m) partly offset by proceeds from the favorable outcome of a litigation (+€17.2m)

24.7%² recurring adjusted³ operating margin, up 27.1% y-o-y

Recurring adjusted³ EPS of € 1.27, up 32.3% y-o-y

€132.0m net cash position as at June 30, 2011

19 Ipsen – Road Show August - September 2011

NOTE 1: excluding foreign exchange impacts
NOTE 2: in percentage of Group sales
NOTE 3: before non recurring elements particularly related to the preparation and implementation of the Group's strategy

One-off costs related to the preparation and implementation of the strategy

One-off costs linked to the new strategy announced on June 9

A total of €80m to €100m before tax over 2011 and 2012

Booked in H1 2011

USA transfer costs to east coast (€8.7m)

Closing of R&D activities of Barcelona site (€18.4m)

Other one-off costs related to the implementation of the strategy and of new organization (€11.6m)

- A total of €38.7m¹ of one-off costs booked in H1 2011
- The balance to be booked over H2 2011and 2012

FY 2011 Outlook and Newsflow

Revised 2011 financial objectives

March	Specialist Care Drug sales	Drug Sales growth close to + 8.0% year-on-year		
2011	Primary Care Drug sales	Drug sales decrease of (8.0%) to (10.0%) year-on-year, pending evolution in France		
	Specialist Care Drug sales	Drug Sales growth close to + 8.0% year-on-year		
August 2011	Primary Care Drug sales	Drug sales decrease of (3.0%) to (5.0%) year-on-year		
	Recurring Adjusted ¹ operating income	Ranging from €190 million to €200 million		

The above objectives are set at constant currency 2011 objective excludes any potential non recurring items

News flow – upcoming catalysts

Filing of IB1001 in the US (H1 2012)

Implementation¹ of Franchise based organization

New future for Primary Care France and Dreux manufacturing plant

Maximize value of Apokyn® and Increlex® in the US while meeting its obligations to patients and partners

New US platform fully operational

23 Ipsen – Road Show August - September 2011

NOTE 1: subject to workers' council opinion

H1 2011: key take-aways

2011, a year of transition...

...with a strong H1 financial performance...

...despite one-off restructuring costs...

...related to the implementation of the new strategy...

...and an increased drug sales objectives

Thank You

25 Ipsen – Road Show August - September 2011

Appendices

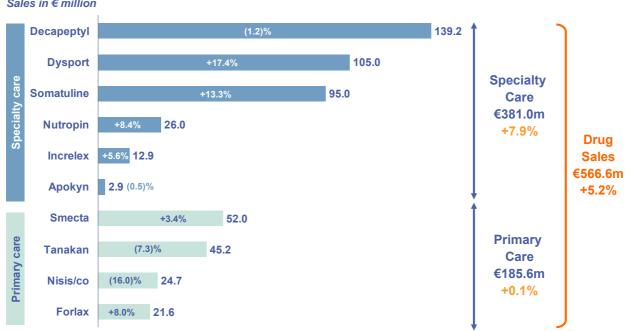

Detailed H1 2011 Financial Results

H1 2011 sales: robust specialty care, resilient primary care

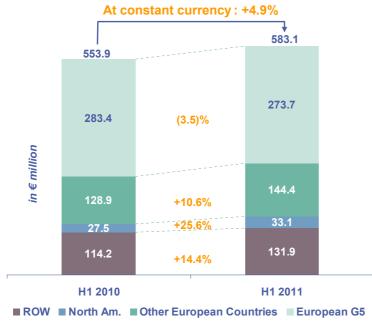

Group's Sales driven by regions other than G5

GROUP SALES growth: +5.3% (incl. Drug related sales)

European G5

Specialty care sales growth offset by tougher competitive environment, notably in French Primary care and government measures in Germany and Spain

Other European countries

Sustained volume growth, particularly in Switzerland, Russia, Austria and Ukraine

North America

Continued penetration of Somatuline® and Dysport®

ROW

Strong volume growth in Algeria, Australia, Columbia and China

Growth rates excluding foreign exchange impacts

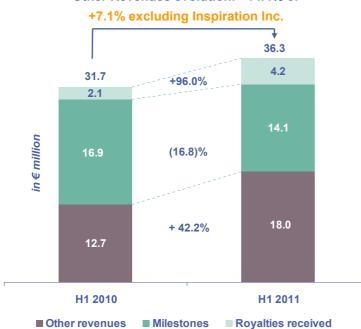

Summary of H1 2011 P&L and evolution

In million euros	H1 2011	H1 2010	Growth (%)
Sales	583.1	553.9	+5.3%
Total Revenues	619.4	585.7	+5.8%
Operating Income Margin ¹	120.8	104.9	+15.1%
Recurring adjusted ² operating income	143.9 24.7%	113.2 20.4%	+27.1%
Consolidated Net Profit (attributable to Ipsen shareholders)	91.7	75.5	+21.4%
Fully diluted EPS	€1.09	€0.90	+21.1%
Fully diluted recurring adjusted ¹ EPS	€1.27	€0.96	+32.3%

Other revenues evolution

Other Revenues evolution: +14.4% or

Royalties Received

Royalties received in H1 2011 doubled with increased royalties from Medicis, Galderma and Menarini

Milestones

Decrease mainly due to accelerated recognition of 2010 taspoglutide Deffered Revenues

Other revenues

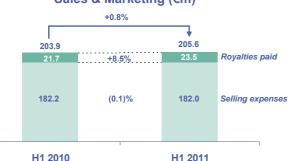

Invoicing of OBI-1's development costs to Inspiration Inc. and income from the Group's Co-promotion contracts in France

Deferred revenues

Total Milestones cashed-in and not yet recognized as revenues

- Payments recognised as revenues in (n+2) and beyond
- Payments recognised as revenues in (n+1)
- Payments recognised as revenues in (n)

Main evolutions

- 2010: accelerated recognition of the remaining taspoglutide deferred revenues from Roche
- H1 2010: important milestones revenue from Inspiration (\$50m) and Menarini (€18m)

Zoom on

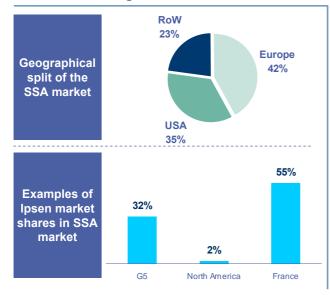

Endocrinology/ Somatuline®

Global Somatostatin Analog (SSA) market in 2010 : ~ 1.1 billion euros...

Q4, 2010 market figures

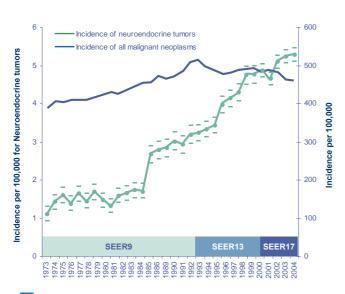

- 2010 SSA market: ~€ 1.1bn
- Solid SSA market growth (+9%¹ in 2009 and +18%¹ in 2010)
- A fairly balanced geographical split between Europe (42% of total sales), the US (35%) and the RoW (23%)
- Somatuline®, an established product in Europe both in Acromegaly and in NET with 55% SSA market share in France and 32% SSA market Share in G5
- Ramping up acromegaly sales in the US with only 2.4% SSA long acting market share in 2010

... exceeding 1.6 billion euros in 2020, driven by NET

NET incidence over 30 years

Incidence per 100,000 for NET between 1973 - 2004²

Steady 3.8%¹ CAGR until 2020

2020 SSA market: ~€1.6bn¹ (+ 45% or 3.8% CAGR)

Growth in the SSA market mainly driven by:

NET

- Studies suggest that NET incidence has been growing rapidly over the past several decades, particularly in the US
- Increased awareness of NETs results in a wider availability of improved diagnostic techniques

The US

• +4.6%1 expected market growth in the US between 2010-2020 (world most solid growth)

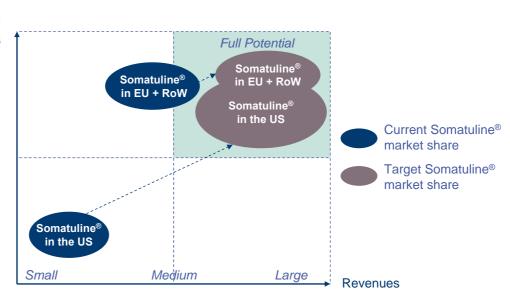

Note 1: Company's internal data Note 2: US Surveillance Epidemiology and End Results (SEER) 2008

41 Ipsen – Road Show August - September 2011

Great potential lies ahead for Somatuline[®]...

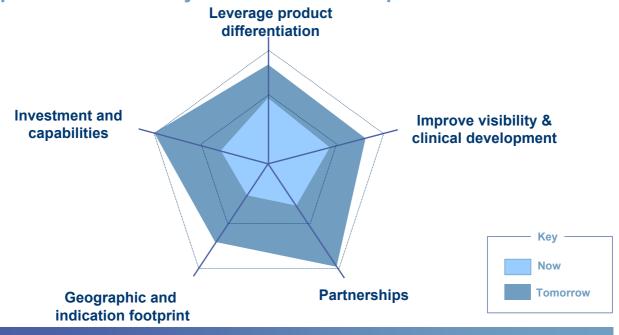

Number of indications

... while SSA market is expected to grow 3.8% CAGR until 2020

FIPSEN Innovation for patient care

Ipsen to work on key levers to reach full potential

NET and the US: two main growth drivers

43 Ipsen – Road Show August - September 2011

New additional elements of differentiation

Increased extended dosing interval worldwide

- Approved in the US in March 2011
- From one injection every 4 weeks (60-90mg) to every 6-8 weeks (120mg)
- Increased comfort for the patients
- Economic benefit

New device

- Retractable needle to ensure full dose release
- Optimal safety for hospital care practitioners/ patients
- Health economic benefits related to absence of clogging and no need for reconstitution

Partnerships to explore new treatment paradigm

Innovative partnership with Pfizer Europe in Neuro Endocrine Tumors (NET)

Medical education initiative kicked off at ENETS (joint symposium on March 11th 2011 in Lisbon)

Build upon respective best-in-class position to develop medical education on gastro-entero-pancreatic NET (GEP NET) management

Drive guidance on patients profiles who would benefit most from both agents

45 Ipsen – Road Show August - September 2011

New indications: Functioning NET in the US and Non Functioning **NET** worldwide

Functioning NET for US label

- Recruitment target: 100 patients
- Global recruitment status on target for completion end of 2012
- Carcinoid syndrome initially slow to recruit due to trial design and ongoing competitive trials
- 12 countries planned (US + 11 ROW countries), 66 sites (56 Row + 10 US)

• USA Brazil Russia Croatia Serbia Czech Rep. South Africa India Turkey Latvia Ukraine Poland

Non Functioning NET worldwide -**CLARINET**

- RECRUITMENT COMPLETED end of April
- 200 patients accrued (45 centers in 14 countries)
 - Austria Italy Belgium Poland Czech Rep. Slovakia Denmark Spain France Sweden UK Germany US

Somatuline®, potentially the only SSA with functioning and non-functioning NET label

Somatuline® Autogel 2020: a globalized reach

47 Ipsen – Road Show August - September 2011

Zoom on

Neurology/ Dysport®

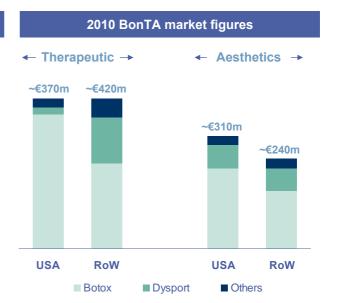

A 2010 botulinum toxin market in excess of 1.3 billion euros

Dysport® market metrics

- 2010 Botulinum toxin market : ~€1.35bn¹
- The US represent north of 50% of the market
- Therapeutic indications represent 58% of the market
- Dysport[®], a solid second player
- Dysport® recently launched by Ipsen in the USA (November 2009) with a single medical indication (cervical dystonia) and by Medecis in aesthetics (Glabellar lines)

Note 1 : Internal company data

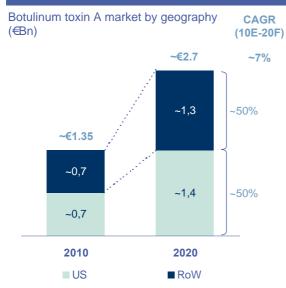

49 Ipsen – Road Show August - September 2011

Source: Ipsen analysis

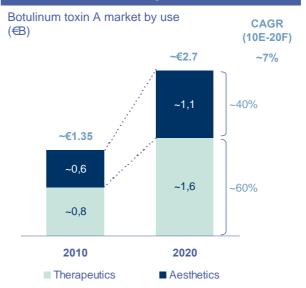

Botulinum toxin market expected to grow by ~7% p.a. to 2.7 billion euros in ten years

US to remain half of 2020 WW market ...

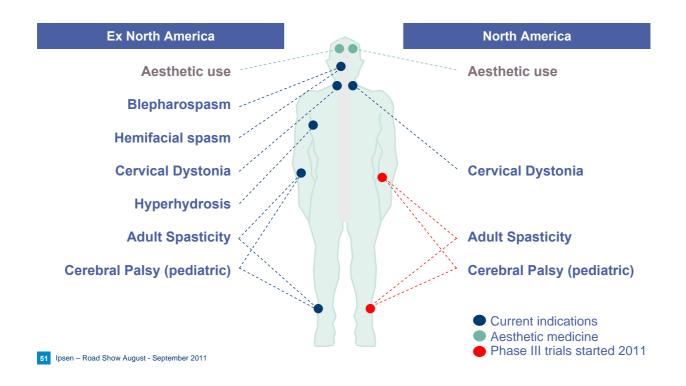

...with split between therapeutics and aesthetics remaining stable

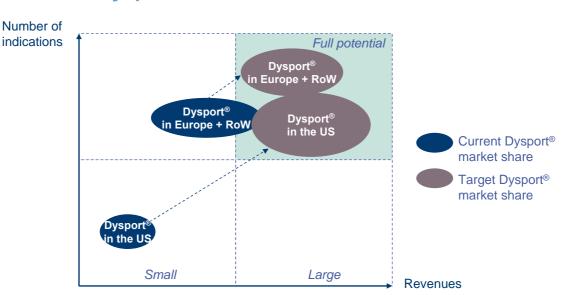

Room for new indications in North America

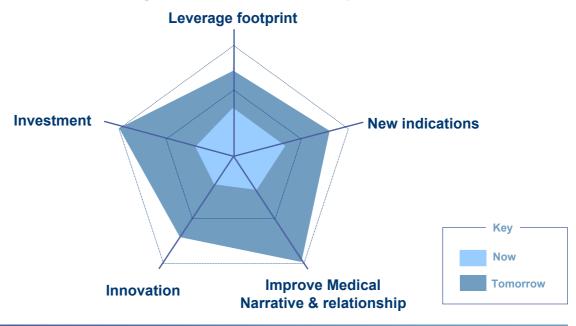

Full potential of Dysport® lies ahead...

... and BonTA market is expected to grow 7% CAGR until 2020

Ipsen to work on key levers to reach full potential

Spasticity and the US: two main growth drivers

53 Ipsen – Road Show August - September 2011

Dysport® 2020 footprint aspiration : More geographies, more indications

Geography/ Therapeutic area	Europe	US	China	Brazil	Russia
Therapeutic	1. Cervical Dystonia 2. Adult arm spasticity 3. Blepharospasm 4. Hemifacialspasm 5. Paediatric per equinus spasticiy (Cerebral palsy) 6. Adult leg spasticity (in three EU markets) 7. Hyperhidrosis 8. Pediatric arm spasticity 9. Neurogenic Detrusor Overactivity	1.Cervical Dystonia 2.Adult Upper Limb 3.Adult Lower Limb 4.Pediatric Lower Limb 5.Pediatric Upper Limb 6.Neurogenic Detrusor Overactivity	1.Cervical Dystonia 2.Other indications under assessment	1. Cervical Dystonia 2. Adult arm spasticity 3. Blepharospasm 4. Hemifacialspasm 5. Paediatric per equinus spasticiy (Cerebral palsy) 6. Adult leg spasticity 7. Hyperhidrosis 8. Pediatric Upper Limb 9. Neurogenic Detrusor Overactivity	1. Cervical Dystonia 2. Adult arm spasticity 3. Blepharospasm 4. Hemifacial spasm 5. Paediatric per equinus spasticity (Cerebral palsy) 6. Hyperhidrosis 7. Pediatric Lower Limb 8. Pediatric Upper Limb 9. Neurogenic Detrusor Overactivity
Aesthetic	1.Glabellar Lines 2.Canthal Lines	1.Glabellar Lines 2.Canthal Lines	1.Glabellar Lines	1.Glabellar Lines	1.Glabellar Lines

New indications: Focus on spasticity and urology indications

Focus on spasticity in the short term...

- Current spasticity indications:
 - Adult upper (ex-US) and lower limb (limited markets)
 - Pediatric lower limb (ex-US)
- Spasticity, a major short-term growth opportunity:
 - Stroke: 15 million people worldwide every year. 5 million are left permanently disabled1
- World-wide Adult and Pediatric Ph III program (4 trials):
 - 4 new indications in the US
 - New and/ or Improved labeling ex-US

... and in urology in the longer term

- Leverage current access to prescriber base:
 - Clear synergies with Uro-oncology franchise in Europe
 - Clear WW synergies with neuro-rehabilitation environment
- Neurogenic Detrusor Overactivity: Ph IIa started (NCT01357980):
 - First patient screened in May 2011
 - Limited cost and high probability of success
- Urology indications, a significant mid term growth potential

55 Ipsen – Road Show August - September 2011

Note 1: WHO The Atlas of Heart Disease and Stroke, Dr Judith MacKay and Dr George A. Mensah

Dysport® Next Generation: a potential new exciting opportunity

The first ready-to-use toxin A...

- ...is a breakthrough innovation bringing clear differentiation vs. competitors
- ...saves time by avoiding reconstitution
- ...improves safety (dilution/dosage, reconstitution, single use product ...)
- ...has positive qualitative very and quantitative market research results1 (c. 500 participants):
 - 83% of potential adopters on time saving and improved safety grounds

A potentially transforming project

- A WW Ph III program to assess safety and efficacy:
 - -Indication: Cervical Dystonia
 - -350 patients
 - -71 sites (42 in Europe, 29 in the US)
 - -First patients recruited in Europe
 - -US recruitment pending feedback from FDA in Q3 2011
- A complex manufacturing process with technical hurdles to be addressed
- Ipsen team fully mobilized to bring R&D project to fruition

Potentially, a major change in market paradigm

Zoom on

Uro-Oncology/ Decapeptyl®

A franchise with renewed growth opportunities

Tasquinimod

for castrate resistant tumors

Once a day oral formulation in PhIII

Decapeptyl®

for hormone-sensitive tumors

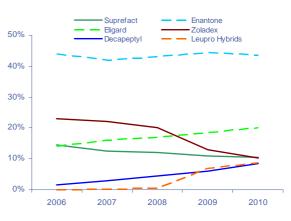

No true generics of GnRH analogs anticipated, only Hybrids

Hybrids rather than true generics

- Risk of true long acting GnRH analogs generics entry expected to be low
- Only hybrids of leuprorelin are available today¹
- Hybrids are currently not substitutable and priced 20-25% below original products
- In Germany, the 2 leuprorelin hybrids have reached less than 10% MS in 3 years² with no impact on class price yet

Impact of hybrids on market shares MEU (*) in Germany

(*) MEU = Monthly equivalent units Source: Insight Health, OdV data - Germany

Hybrids represent a moderate threat to GnRHa established brands compared to true generics

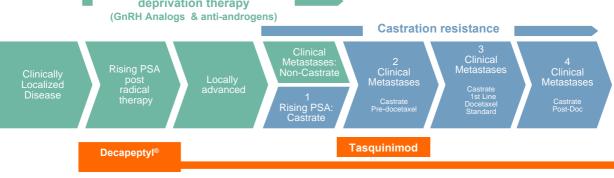

59 Ipsen – Road Show August - September 2011

Note 1: goserelin hybrid has been withdrawn from the 2 markets where they were launched (UK and GER) Note 2: despite promotional investments and push from payers

Tasquinimod: a perfect strategic fit

Disease controlled by androgen deprivation therapy

Population Incidence in G5*

149 000 Stage I & II

111 000 Stage III & IV 153 000 **CRPC**

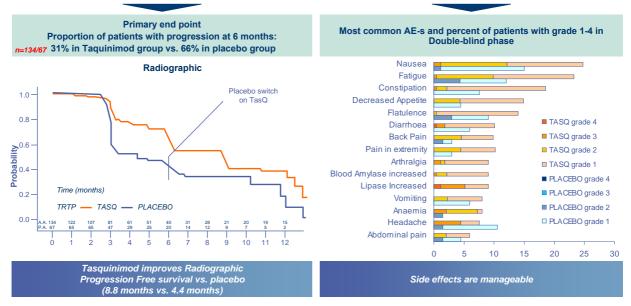

- Leverage the Group's current leadership position in prostate cancer

- Expand to medical oncology
- Access to significant sales potential
- Beyond prostate, tasquinimod has potential in other cancers (such as GI)

Tasquinimod, promising phase II results

Safety and efficacy analysis* of Phase II study of Tasquinimod in chemotherapy naïve patients with asymptomatic metastatic castrate-resistant prostate cancer (CRPC) (n=201)

^{*} ASCO-GU, 2011, J. Armstrong¹, M. Haggman², W. M. Stadler³, J. R. Gingrich⁴, V. J. Assikis⁵, O. Nordle⁵, G.Forsberg¢, M. A. Carducci², R. Pili°

61 Ipsen – Road Show August - September 2011

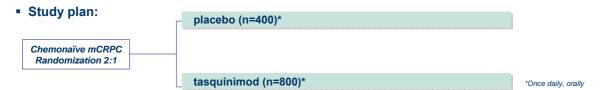

The design of the study is consistent with EMA guidance - NCT01234311

Tasquinimod, Phase III program ongoing

A Phase III randomized, double-blind, placebo-controlled study of Tasquinimod in men with asymptomatic/mildly asymptomatic Metastatic Castrate Resistant Prostate Cancer

- Objectives
 - TASQ in chemonaïve patients with metastatic castrate-resistant prostate cancer
 - · Effect of Tasquinimod on delaying disease progression compared with placebo
- Endpoints
 - · Primary: Radiological progression-free survival (PFS)
 - Secondary Endpoint: Overall Survival (OS) Study powered for OS

- **Principal investigators:**
 - America: Michael A Carducci, Johns Hopkins Kimmel Cancer Center, Baltimore, USA
 - Europe: Cora N Sternberg, San Camillo and Forlanini Hospitals Rome, Italy

International Pivotal Phase III opened 1Q 2011...

... filing expected in 2014

Tasquinimod, deal terms for Ipsen

Geographies

World excluding Japan and the Americas

Execution

- Active Biotech: Pivotal registration PhIII
- Ipsen: Supportive study

Financials

- Milestones:
 - Upfront payment of €25 million
 - Additional payments of €175 million contingent upon progress/ achievement of clinical, regulatory and commercial milestones
- Royalty rate: progressive on the level of sales starting in the low teens

Expected peak sales: in excess of €250m

63 Ipsen – Road Show August - September 2011

Zoom on:

Hemophilia

Ipsen and Inspiration are aiming at all levels of the coagulation cascade for the treatment of hemophilia

A full fledged hemophilia franchise, with potentially 4 products

...with a **broad** potential inhibitor therapy offering (OBI-1, FVIIa)...

...and the first recombinant **competitor** in hemophilia B therapy, IB1001 ...differentiated with **OBI-1**, the only recombinant porcine FVIII product...

- → An \$8bn market
- → A high margin market
- → 2 products in Ph III:
 - OBI-1: a highly innovative porcine recombinant Factor VIII (orphan drug)
 - IB1001: first rFIX biosimilar in an underserved, fast growing market

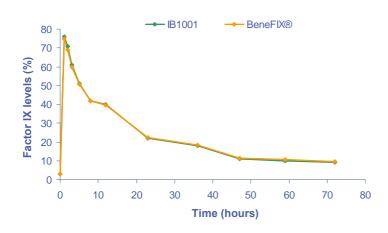

65 Ipsen – Road Show August - September 2011

IB 1001

IB 1001 demonstrated non-inferiority to BeneFIX®

Mean FIX activity by time and treatment

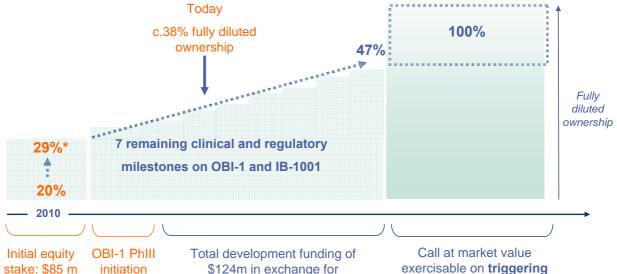

The preliminary safety data collected during the PK study phase indicate that IB1001 has an acceptable safety profile and is well tolerated

Study IB1001-01 is ongoing and further analyses on safety and efficacy will be available in 2011.

Ipsen now has ~38% of fully diluted ownership of Inspiration

stake: \$85 m initiation
+ OBI-1 \$50 m paid
upfront: \$50 m by Ipsen in
+ 27.5% royalty exchange for
