

Information on publishing of donations and grants to hospitals / hospital departments - DK

According to the ENLI's Donation code, the following information will be published on Ipsen Nordic website (www.ipsennordic.com) from the date of signing the contract and for two (2) years subsequently.

Required information	Information data
Publishing date	June 2019
Earliest date of withdrawal from website	June 2021
Name of the activity, project, equipment or unit the donation or grant is to support	Carcinoid Heart Disease: The prognostic value of echocardiography, cardiac MRI, Rb-PET and circulating biomarkers
Name(s) of the hospital / department, etc., responsible for the activity, project, equipment or unit	NET Center of Excellence, Rigshospitalet Copenhagen
Types of activity / project / equipment / unit for which the donation or grant is being given	Study
The purpose of the activity / project / equipment / unit for which the donation or grant is being made	<ol style="list-style-type: none"> 1. Investigate the frequency of CHD in patients with residual small intestinal NETs with or without liver metastases. 2. Characterise the right-sided heart function (volume, function, fibrotic changes) in patients with verified small intestinal NETs by cardiac MRI compared to healthy controls. 3. Quantify the myocardial perfusion non invasively with Rb-PET in patients with verified small intestinal NETs compared to healthy controls 4. Investigate the prognostic role of cardiac MRI, Rb-PET and circulating biomarkers for the progression of CHD. 5. Investigate the development and course of CHD in patients with small intestinal NETs treated with somatostatin analogs.
Timeframe (if available)	
The amount of funding provided	22.000 Eur
