

PROJECT NAME:

Neuroendocrine Tumour (NET) Dietitian Service Redesign Project between University Hospitals Birmingham (UHB) NHS Trust, Queen Elizabeth Hospital site, Birmingham and Ipsen Ltd

TIMEFRAME:

January 2020 - July 2022

JOINT WORKING PROJECT SUMMARY:

To improve NET patients' symptom control, nutritional status and outcomes through increased and equitable access to specialist nutritional expertise delivered by a specialist dietitian focusing on symptom management associated with NETs

OUTCOMES ACHIEVED BY THIS PROJECT:

- Development and implementation of a high quality nutritional management pathway.
- Service data was captured demonstrating improvements in patient satisfaction, waiting times and resource allocation.
- Continuation of the service following project completion.

PROJECT COMPLETED 31ST JULY 2022
